

# User Stories

## **Based on User as Buyer :**

As a new user, I want to register on the website so that I can create an account and make purchases.

As a new user, I want to see a registration form with fields such as name, email address, and password, so that I can provide my information for account creation.

As a new user, I want the registration form to include validation checks for fields like email address and password, so that I can ensure the accuracy and security of my account details.

As a registered user, I want to be able to log in using my email address and password, so that I can access my account and make purchases.

As a registered user, I want to have a profile page where I can manage my personal information, such as updating my name, email address, and password.

As a user, I want to be able to search for available books, and categories based on location, language, price, and other criteria.

As a user, I want to view detailed information about the book, including specifications, price, author, language, and images.

As a user, I want to be able to save books to my cart or wish list for future reference.

As a user, I want to be able to order a book by selecting a book that I want .

As a user, I want to receive confirmation about order confirmation

As a user, I want to be able to cancel my Order if needed.

As a registered user, I want to be able to log out from my account when I'm done ordering books or not , ensuring the security of my personal information.

As a logged-out user, I want to see a login or registration form when I try to access protected pages, such as the books or profile page, so that I can login back in or register.

As a user, I want the application to have a user-friendly and intuitive interface for easy navigation and book selection.

As a user, I want the application to be responsive and accessible from different devices such as desktops, tablets, and mobile phones.

### **Based on User as Seller:**

As a new seller, I want to register and login on the website so that I can create an account and sell books.

As a seller, I want to have a secure login and registration process of Users to access my books that I want to sell.

As a seller, I want to be able to send requests to admin for selling books and also can delete my books whenever required.

### **As a Administrator:**

As an administrator, I want to be able to view all registered users and be able to delete invalid users.

As an administrator, I want to be able to manage all the books and be able to view the order list of each buyer.

As an administrator, I want to be able to approve and refuse the requests for adding the books from sellers.

As an administrator, I want to be able to update order delivery status in the system.
